Janlyn Rustila

has successfully completed the online Specialization

CompTIA Security+ Certification Preparation

This Certificate is awarded for completing the CompTIA Security+ Certification Preparation Specialization. The learner has mastered core cybersecurity concepts, including information security principles, cryptography, threat detection, system and network defense, vulnerability management, and incident response. They have applied skills in governance, risk management, compliance, and data protection while securing IT assets and enterprise systems. This Certificate recognizes their expertise and readiness to tackle real-world cybersecurity challenges.

Himanshu Nigam
CEO, LearnKartS

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
